CLASSIC AUTUMN WINTER CAPS AND HATS

Autumn and Winter are great seasons for hat wearers. Our caps and hats are made from the finest Scottish tweeds, British moleskin and wools. The tweeds are selected in either a fine milled finish or a more rustic country handle sourced in Hawick, the home of Scottish tweed. For sport, for fashion, for country pursuits or simply for protection from the weather, we have a stunning range of fine caps and hats for all occasions.

Our collection of trilbies and winter caps are complemented with a selection of cold weather essentials; Trappers in tweed and shearling, the quintessentially British Sherlock Deerstalker style and its single peak cousin – the Watson. And most recently introduced we have our new Breton with its soft handle which makes it perfect for a cold weather get away. Also we have updated and improved our waxed cotton Balmorals to give a lighter feel to this essential water resistant cap. Practical style with Christys' exceptional quality of make and fabrication.

HANDMADE PANAMAS

Even if its raining at our factory in Oxfordshire its bound to be summer somewhere in the world and what better than one of our Classic Panama hats to protect your head with style. Whether it's a Christmas BBQ or a winter get away in the sun, nothing can beat a handmade Christys' Panama hat. In response to demand we have added our Classic Panamas to our Autumn/Winter range – finally summer is all year round!

From the classic bleached white for a garden party through to the natural for cocktails by the sea, the Panama hat is style personified. Each Panama may start life on the coastal plains of Ecuador, but every Christys' Panama eventually epitomises great British summer style. UNESCO added the art of hand weaving the toquilla straw (panama) hat to the world's Intangible Cultural Heritage List and as Christys' naturally identifies with this unique craft we continue to make the Ecuadorian Panama the backbone of our Classic Panama collection, as we have done for over a century. Our Superfine Grade 8 is the height of Panama quality and now we have added our unique Christys' leather and garter band across the range. Not to be left out, our iconic Classic Preset is also offered with this emblem of heritage and quality which was established in 1876 as one of the first ever global trade marks.
