# SPRING / SUMMER COLLECTION 2018 HANDMADE SEASONAL PANAMA COLLECTION

---

For SS18 we have drawn on our unique heritage: strong, tried and tested shapes, expertly made in the finest materials – and updated it with a bold and innovative use of materials and colour to create a collection of hats that exemplifies Christys’ for the modern hat wearer.

In this spirit we have trimmed our iconic Brisa Panama styles with vibrantly coloured fine Italian leather – the Portobello gets a dynamic and modern twist with a leather brim (a totally new technique) and the Notting Hill, Hoxton and Carnaby styles get clean leather bands giving them a fresh and contemporary update. Exclusive Fino Cross-Hatch and Star weaves sit alongside a new fringed striped band to create an exciting and sophisticated palette of colour and texture. Making its debut in the Cuenca 3 range is the Wantage – an adaptation of our Classic Folder Panama for the ladies that can be neatly rolled for easy and stylish travel.

These contemporary takes on our classic styles are designed to flatter the wearer and compliment the seasonal wardrobe, whether it is attending a sporting event or celebrating in the sun.

## HANDMADE CLASSIC PANAMA

---

Each panama may start life on the coastal plains of Ecuador, but every Christys panama hat eventually epitomises great summer style. UNESCO added the art of hand weaving the toquilla straw (panama) hat to the world's Intangible Cultural Heritage List and as Christys naturally identifies with this unique craft we continue to make the Ecuadorian Panama the backbone of our summer collections, as we have done for over a century.

From the classic bleached white for a garden party through to the sky blue for cocktails by the sea, the panama is style personified.

New for SS18 we have added our refined and unique Christys' garter pin. This emblem of heritage and quality which was established in 1876 as one of the first ever global trade marks can be found in our classic Preset and folder styles.

## FORMAL HATS

---

No hat is as iconic or as culturally significant as the Top Hat. It has adorned the heads of the infamous and famous alike – kings, queens, criminals and cowboys have all chosen the top hat to signify status and intent. Alongside its no less impressive cousin the Bowler hat, the Topper has more than stood the test of time. The exact heritage of the Topper is lost in the mists of history but what is certain is that Christys' have been making both Top hats and Bowlers since they first appeared.
